## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Litt et al., USP 5,707,575.

The cited reference teaches the claimed method of removing excess fill material from a printed circuit board using a blade, in such a way that it shears the material from the board, wherein accumulated material is removed from the blade, and the board and blade move relative to one another in a further embodiment. See col. 5, line 45 to col. 6, line 16; col. 6, lines 55-65; col. 7, lines 1-30.

### ***Allowable Subject Matter***

Claims 5-11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The prior art of record does not teach or suggest at least claims 5 and 6 as claimed, including all of the limitations of the base claim and any intervening claims.

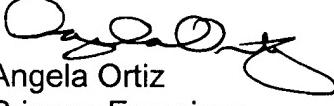

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. USP's 5144747; 5468681; 5916641; 6015520; 6114098; 6225031; 6305769; 6506332; 6598291.
